

### Thulani Senior German Shepherd Rescue

TSGSR ... a legacy of helping the most vulnerable

The plea came in 'Would Thulani be interested in pulling 12 year old Boomer?'

How could we say no?

### Boomer's Saga

Boomer found himself in quite the predicament, a senior in the shelter, with a large mass thought to be cancer on his rear end and yellow goop dripping from both eyes.

Boomer needed serious expensive medical care and would likely not make it out of the shelter alive. Thulani had no room, but we took him anyway.

That was the first of his good luck, and next it was determined that it was not cancer but a hernia! And his eyes should improve with daily medication. Soon he will be living out his golden years with the love in his forever home because of supporters like you.

### With Your Support The Thulani Team Has Moved And Hit The Ground Running!

The entire Thulani Team is now working within our own independent rescue, Thulani Senior German Shepherd Rescue (TSGSR). This move has allowed us to do our job better and implement our successful ideas even more widely.

**What did not move with us is any money.** Yet, we are saving the most vulnerable of the shelter population, seniors, at a rate that we had not been able to before. The dogs depend on us, the shelters depend on us, other rescues depend on us and **we depend on compassionate people like you to donate funds** that will help us save great dogs like Boomer.

Your generous end of the year donation will help cover not only immediate medical expenses, but those for the rest of their lives even after adoption, a unique commitment that Thulani makes to every dog we save.

### Boomer is recovering from Surgery

Even so you can see his magnificence shining through. He has a winning personality to match. Without you we could not help wonderful dogs like Boomer!
